

Classroom IV News

Fall 2006

October has been a very busy month for students and teachers alike! Our second year children enjoyed their trip to Safety City on the 16th but were almost rained out of the grand finale-the driving of the cars! But the rain held off and second year came back experienced drivers at Safety City.

Classroom IV traveled back in time to visit life during medieval times at Classroom VII's Renaissance Fair on the 19th. What a wonderful afternoon of learning through participation and experience!

Our class went to the U.K. Arboretum on the 26th and had lessons on seed types. We went on a wet hike, dodging the rain, and sampled the fruit of a persimmon tree, plus saw many plants and trees with their seed pods still intact. Thank you Ms. Burns for our lesson!

In November we have a trip to McConnell Springs scheduled for the 10th. In December, we will travel to the Hummel Planetarium at ECU on the 7th and first year students will attend the traditional seasonal viewing of "The Nutcracker" on December 12th.

As always, we welcome any lessons that you would like to present to our children; whether it's cooking, sewing, crafts, science experiments, historical information, poetry-- the sky is the limit. So please come, share, teach, eat lunch, observe, visit!
