

Classroom VI News
October 7, 2009

We have settled into the school year with many wonderful projects going on. Everyday, a glance around the classroom reveals much activity, research and learning.

The school's native plant garden has graced us with its bounty as it does every season. Not only do we get to enjoy its beauty through our classroom windows but also the specimens it provides us. We have the perfect observation point to watch for our current "bird of the month," the American Robin.

We are excited about our upcoming field trip on Tuesday, October 20 to the Salato Wildlife Center. After the program, the children will have a chance to explore the indoor and outdoor exhibits. We'll cap off our trip with a picnic lunch. If you can help drive, please send in the driving request form. If you cannot drive and your child is under 7 years of age or less than 50" tall, a booster seat is required. If your child needs a booster seat and it is not provided, your child will not go on the trip.

Other events in the near future:

- October 25: Grandparent's Day/Open house. Details in "Thursday Mail."
- November 5-6: 3rd year-students overnight. Details later.

REMINDER: Send in those aluminum beverage cans! Our 3rd year students will be involved in the promotion and processing of the cans. They are excited about the possibility of our school winning prize money again.

We look forward to a wonderful fall season. Again, you are welcome to come to the classroom for lunch or an observation anytime that fits your schedule. Please note, however, that we need advance notice if you wish to come for lunch as seating is tight.
