

*This Summer
Camp with the Arts!*

Camp with the Arts would like to welcome you to a celebration of the arts. Campers will create play, sing and share in a dramatic performance. Our camp will enrich your child's summer with beauty and imagination, creating lasting friendships while building memories. Art activities will include pottery on the wheel, large mural painting, weaving, watercolor, spin art, origami, sand art, Photo shop and paper mache to name a few. Music classes will study voice, sing chorus, learn harmony and play musical instruments. We are very pleased to have Lexington Children's Theatre leading our drama performances. Each performance will take place the last day of the session in a stage setting that the children create. Culture and science will explore the natural world and bring out the scientist in each child through experiments and games. Providence Montessori will provide a wonderful and beautiful learning environment where a child's imagination can grow!
